JOURNAL OF MOLECULAR CATALYSIS

Author Index

Abd El-Hafez, S.F., see Halawy, S.A. 191
Agag, T., see Akelah, A. 311
Akelah, A., Rehab, A., Selim, A. and Agag, T.
Synthesis and application of organophilic polystyrene–montmorillonite supported onium salts in organic reactions 311
Annila, A., see Toba, M. 85
Aramendía, M.A., Borau, V., Jiménez, C., Marinas, J.M., Porras, A., Urbano, F.J. and Villar, L.
Sepiolites as supports for Pd catalysts used in organic reduction processes 131
Arena, F., Cum, G., Gallo, R. and Parmaliana, A.
Palladium-based catalysts supported on oligomeric aramides. A TPR investigation 203
Barteau, M.A., see Pierce, K.G. 389
Bartik, B., see Bunn, B.B. 157
Bartik, T., see Bunn, B.B. 157
Bebout, W.R., see Bunn, B.B. 157
Bélafi-Bakó, K., Dombi, Á., Szabó, L. and Nagy, E.
Effect of temperature on hydrolysis of triolein by lipase L291
Benitez, J.L., see Del Angel, G. 409
Borau, V., see Aramendía, M.A. 131
Brabec, L., Nováková, J. and Kubelková, L.
Catalytic conversion of oxygen containing cyclic compounds. Part I. Cyclohexanol conversion over H[Al]ZSM-5 and H[B]ZSM-5 117
Brabec, L., Nováková, J. and Kubelková, L.
Catalytic conversion of oxygen containing cyclic compounds. Part II. Cyclohexanone conversion on HZSM-5 zeolites 243
Brembilla, A., see Krati, N. 263
Bunn, B.B., Bartik, T., Bartik, B., Bebout, W.R., Glass, T.E. and Hanson, B.E.
Phosphorus-31 NMR spin lattice relaxation times as an indirect probe of adsorbed water in supported aqueous phase catalysts 157
Buttersack, C. and Laketic, D.
Hydrolysis of sucrose by dealuminated Y-zeolites L283
Cabras, M.A., see Cocco, G. 299
Campostrini, R., see Cocco, G. 299
Carturan, G., see Cocco, G. 299
Castillón, S., see Masdeu, A.M. 149
Cavell, K.J., see Seen, A.J. 163
Cavinato, G., Ronchin, L. and Toniolo, L.
Highly selective palladium catalyzed hydrogen transfer from H_2O–CO to the C=C double bond of β-benzoylacrylic acid 173
Chang, H.-F., Saleque, M.A., Hsu, W.-S. and Lin, W.-H.
Effect of acidity and copper surface area of the Cu/Al_2O_3 catalyst prepared by electroless plating procedure on dehydrogenation reactions 233
Claver, C., see Masdeu, A.M. 149
Cocco, G., Campostrini, R., Cabras, M.A. and Carturan, G.
Propene hydrogenation on low-temperature reduced Pt/TiO_2. Effects of TiO_2 phases and H_2 treatment on specific catalytic activity 299
Conte, V., Furia, F.D. and Moro, S.
^{51}V-NMR investigation on the formation of peroxo vanadium complexes in aqueous solution: some novel observations 323
Correia, J.D.G., see Herrmann, W.A. 213
Cum, G., see Arena, F. 203
Cvengrošová, Z. and Hronec, M.
Study of the competition between disproportionation and oxidation of cyclohexene in the liquid phase over solid catalysts 181
Da Silva, S.M. and Phillips, J.
Hydroisomerization probe of the catalytic and structural behavior of iron–rhodium particles supported on refractory oxide supports 97
Del Angel, G. and Benitez, J.L.
Ammonia and sulfur poisoning effects on hydrogenation of phenylacetylene over Pd supported catalysts 409
Di Serio, M., see Santacesaria, E. 37
Dombi, Á., see Bélafi-Bakó, K. L291
Fischer, R.W., see Herrmann, W.A. 213
Froment, G.F., see Pille, R.C. 369
Furia, F.D., see Conte, V. 323
Gallo, R., see Arena, F. 203
Gandía, L.M. and Montes, M.
Effect of the reduction temperature on the selectivity of the high temperature reaction of

acetone and hydrogen over alumina and titania supported nickel and cobalt catalysts 347
Gates, B.C., see Purnell, S.K. L1
Giannandrea, R., Mastrorilli, P., Nobile, C.F. and Suranna, G.P.
Aerobic oxidation of aldehydes, ketones, sulfides, alcohols and alkanes catalysed by polymerizable β-ketoesterate complexes of iron(III), nickel(II) and cobalt(II) 27
Glass, T.E., see Bunn, B.B. 157
Halawy, S.A., Mohamed, M.A. and Abd El-Hafez, S.F.
Dehydrogenation of isopropyl alcohol over Co–Ni/Mg oxide catalysts 191
Hanson, B.E., see Bunn, B.B. 157
Herrmann, W.A., Fischer, R.W. and Correia, J.D.G.
Multiple bonds between main-group elements and transition metals. Part 133. Methyltrioxorhenium as a catalyst of the Baeyer-Villiger oxidation 213
Hodges, A.M., see Seen, A.J. 163
Hronec, M., see Cvengrošová, Z. 181
Hsu, W.-S., see Chang, H.-F. 233
Jiménez, C., see Aramendía, M.A. 131
Komppa, V., see Toba, M. 85
Krati, N., Brembilla, A. and Lochon, P.
Cleavage of active esters by functional thiol compounds: acceleration and time-dependent effects induced by cationic surfactants 263
Kubelková, L., see Brabec, L. 117
Kubelková, L., see Brabec, L. 243
Laketic, D., see Buttersack, C. L283
Leone, U., see Santacesaria, E. 37
Lietti, L. and Tronconi, E.
Mechanistic aspects of the higher alcohol synthesis over unpromoted ZnCrO: 1-propanol flow microreactor study 335
Lin, W.-H., see Chang, H.-F. 233
Liu, Z.-T., Zhou, J.-L. and Zhang, B.-J.
Poisoning of iron catalyst by COS in syngas for Fischer–Tropsch synthesis 255
Lochon, P., see Krati, N. 263
Maeda, K., see Toba, M. 85
Marinas, J.M., see Aramendía, M.A. 131
Masdeu, A.M., Orejón, A., Ruiz, A., Castillón, S. and Claver, C.
New hydroformylation rhodium catalysts with dithiolate chiral ligands 149
Mastrorilli, P. and Nobile, C.F.
Aerobic epoxidation of olefins catalyzed by polymerizable β-ketoesterate complexes of iron(III), nickel(II) and cobalt(II) 19
Mastrorilli, P., see Giannandrea, R. 27
Mau, A.W.-H., see Seen, A.J. 163
Mills, A., see Worsley, D. 71
Mizukami, F., see Toba, M. 85
Mohamed, M.A., see Halawy, S.A. 191
Montes, M., see Gandía, L.M. 347
Moro, S., see Conte, V. 323
Nagy, E., see Bélafi-Bakó, K. L291
Niwa, S., see Toba, M. 85
Nobile, C.F., see Mastrorilli, P. 19
Nobile, C.F., see Giannandrea, R. 27
Nováková, J., see Brabec, L. 117
Nováková, J., see Brabec, L. 243
Orejón, A., see Masdeu, A.M. 149
Paál, Z.
XPS of carbon on Pt-black and EUROPT-1. Is methylcyclopentane ring opening a 'coke sensitive' reaction? 225
Parmaliana, A., see Arena, F. 203
Phillips, J., see Da Silva, S.M. 97
Pierce, K.G. and Barteau, M.A.
Divergence of allene from methylacetylene oligomerization reactions on reduced TiO_2 (001) surfaces 389
Pille, R.C., Yu, C. and Froment, G.F.
Kinetic study of the hydrogen sulfide effect in the conversion of thiophene on supported Co–Mo catalysts 369
Popa, V.T. and Segal, E.
Surface nonuniformity and kinetic insensitivity on heterogeneous catalysts 47
Porras, A., see Aramendía, M.A. 131
Purnell, S.K. and Gates, B.C.
Formation of rhenium subcarbonyls on magnesium oxide from adsorbed K_2ReCl_6 L1
Rehab, A., see Akelah, A. 311
Ronchin, L., see Cavinato, G. 173
Ruiz, A., see Masdeu, A.M. 149
Saleque, M.A., see Chang, H.-F. 233
Sano, T., see Toba, M. 85
Santacesaria, E., Di Serio, M., Velotti, R. and Leone, U.
Hydrogenation of the aromatic rings of 2-ethylanthraquinone on palladium catalyst 37
Seen, A.J., Cavell, K.J., Hodges, A.M. and Mau, A.W.-H.
Nafion® supported cationic palladium complexes as catalysts (II) 163
Segal, E., see Popa, V.T. 47
Selim, A., see Akelah, A. 311
Sherrington, D.C., see Tang, H.G. 7
Suranna, G.P., see Giannandrea, R. 27
Szabó, L., see Bélafi-Bakó, K. L291
Tang, H.G. and Sherrington, D.C.
Polymer-supported Pd(II) Wacker-type catalysts. Part III. Isomerisation of alkene double bond 7
Toba, M., Mizukami, F., Niwa, S., Sano, T., Maeda, K., Annila, A. and Komppa, V.
The effect of preparation methods on the properties of zirconia/silicas 85

Toniolo, L., see Cavinato, G. 173
Tronconi, E., see Lietti, L. 335
Urbano, F.J., see Aramendía, M.A. 131
Velotti, R., see Santacesaria, E. 37
Villar, L., see Aramendía, M.A. 131
Worsley, D. and Mills, A.
The effects of differing degrees of thermal activation of $RuO_2 \cdot xH_2O$ on its corrodability and oxygen catalytic activity 71
Yu, C., see Pille, R.C. 369
Zhang, B.-J., see Liu, Z.-T. 255
Zhou, J.-L., see Liu, Z.-T. 255

JOURNAL OF MOLECULAR CATALYSIS

Subject Index

Acetone
Effect of the reduction temperature on the selectivity of the high temperature reaction of acetone and hydrogen over alumina and titania supported nickel and cobalt catalysts 347
Acidity
Effect of acidity and copper surface area of the Cu/Al_2O_3 catalyst prepared by electroless plating procedure on dehydrogenation reactions 233
Acidity effects
Catalytic conversion of oxygen containing cyclic compounds. Part I. Cyclohexanol conversion over H[Al]ZSM-5 and H[B]ZSM-5 117
Activity
Poisoning of iron catalyst by COS in syngas for Fischer–Tropsch synthesis 255
Adsorbed water
Phosphorus-31 NMR spin lattice relaxation times as an indirect probe of adsorbed water in supported aqueous phase catalysts 157
Alcohols
Aerobic oxidation of aldehydes, ketones, sulfides, alcohols and alkanes catalysed by polymerizable β-ketoesterate complexes of iron(III), nickel(II) and cobalt(II) 27
Alcohol synthesis
Mechanistic aspects of the higher alcohol synthesis over unpromoted ZnCrO: 1-propanol flow microreactor study 335
Aldehydes
Aerobic oxidation of aldehydes, ketones, sulfides, alcohols and alkanes catalysed by polymerizable β-ketoesterate complexes of iron(III), nickel(II) and cobalt(II) 27
Alkali addition
Mechanistic aspects of the higher alcohol synthesis over unpromoted ZnCrO: 1-propanol flow microreactor study 335
Alkene
Polymer-supported Pd(II) Wacker-type catalysts. Part III. Isomerisation of alkene double bond 7
Alkenes
Sepiolites as supports for Pd catalysts used in organic reduction processes 131
Alumina
Effect of the reduction temperature on the selectivity of the high temperature reaction of acetone and hydrogen over alumina and titania supported nickel and cobalt catalysts 347
Kinetic study of the hydrogen sulfide effect in the conversion of thiophene on supported Co–Mo catalysts 369
Amination
Catalytic conversion of oxygen containing cyclic compounds. Part II. Cyclohexanone conversion on HZSM-5 zeolites 243
Ammonia
Ammonia and sulfur poisoning effects on hydrogenation of phenylacetylene over Pd supported catalysts 409
Anthraquinone derivatives
Hydrogenation of the aromatic rings of 2-ethylanthraquinone on palladium catalyst 37
Aqueous phase
Phosphorus-31 NMR spin lattice relaxation times as an indirect probe of adsorbed water in supported aqueous phase catalysts 157
Aqueous solutions
^{51}V-NMR investigation on the formation of peroxo vanadium complexes in aqueous solution: some novel observations 323
Aromatics
Hydrogenation of the aromatic rings of 2-ethylanthraquinone on palladium catalyst 37
Asymmetric reaction
New hydroformylation rhodium catalysts with dithiolate chiral ligands 149
Baeyer–Villiger reaction
Multiple bonds between main-group elements and transition metals. Part 133. Methyltrioxorhenium as a catalyst of the Baeyer-Villiger oxidation 213
Bäyer–Villiger reaction
Aerobic oxidation of aldehydes, ketones, sulfides, alcohols and alkanes catalysed by polymerizable

β-ketoesterate complexes of iron(III), nickel(II) and cobalt(II) 27
Benzimidazole derivatives
Cleavage of active esters by functional thiol compounds: acceleration and time-dependent effects induced by cationic surfactants 263
Bimetallic particles
Hydroisomerization probe of the catalytic and structural behavior of iron–rhodium particles supported on refractory oxide supports 97
C–H bond activation
Aerobic oxidation of aldehydes, ketones, sulfides, alcohols and alkanes catalysed by polymerizable β-ketoesterate complexes of iron(III), nickel(II) and cobalt(II) 27
Chiral ligands
New hydroformylation rhodium catalysts with dithiolate chiral ligands 149
Chromium
Mechanistic aspects of the higher alcohol synthesis over unpromoted ZnCrO: 1-propanol flow microreactor study 335
Cobalt
Aerobic epoxidation of olefins catalyzed by polymerizable β-ketoesterate complexes of iron(III), nickel(II) and cobalt(II) 19
Aerobic oxidation of aldehydes, ketones, sulfides, alcohols and alkanes catalysed by polymerizable β-ketoesterate complexes of iron(III), nickel(II) and cobalt(II) 27
Dehydrogenation of isopropyl alcohol over Co–Ni/Mg oxide catalysts 191
Effect of the reduction temperature on the selectivity of the high temperature reaction of acetone and hydrogen over alumina and titania supported nickel and cobalt catalysts 347
Kinetic study of the hydrogen sulfide effect in the conversion of thiophene on supported Co–Mo catalysts 369
Coke sensitivity
XPS of carbon on Pt-black and EUROPT-1. Is methylcyclopentane ring opening a 'coke sensitive' reaction? 225
Commercial catalyst
Poisoning of iron catalyst by COS in syngas for Fischer–Tropsch synthesis 255
Complexing agent
The effect of preparation methods on the properties of zirconia/silicas 85
Copper
Effect of acidity and copper surface area of the Cu/Al_2O_3 catalyst prepared by electroless plating procedure on dehydrogenation reactions 233
Poisoning of iron catalyst by COS in syngas for Fischer–Tropsch synthesis 255
Corrodability
The effects of differing degrees of thermal activation of $RuO_2 \cdot xH_2O$ on its corrodability and oxygen catalytic activity 71
COS poisoning
Poisoning of iron catalyst by COS in syngas for Fischer–Tropsch synthesis 255
Cyclohexanol
Catalytic conversion of oxygen containing cyclic compounds. Part I. Cyclohexanol conversion over H[Al]ZSM-5 and H[B]ZSM-5 117
Effect of acidity and copper surface area of the Cu/Al_2O_3 catalyst prepared by electroless plating procedure on dehydrogenation reactions 233
Cyclohexanone
Catalytic conversion of oxygen containing cyclic compounds. Part II. Cyclohexanone conversion on HZSM-5 zeolites 243
Cyclohexene
Catalytic conversion of oxygen containing cyclic compounds. Part I. Cyclohexanol conversion over H[Al]ZSM-5 and H[B]ZSM-5 117
Study of the competition between disproportionation and oxidation of cyclohexene in the liquid phase over solid catalysts 181
Cyclopentane
XPS of carbon on Pt-black and EUROPT-1. Is methylcyclopentane ring opening a 'coke sensitive' reaction? 225
Deactivation
Ammonia and sulfur poisoning effects on hydrogenation of phenylacetylene over Pd supported catalysts 409
Dehydrogenation
Dehydrogenation of isopropyl alcohol over Co–Ni/Mg oxide catalysts 191
Effect of acidity and copper surface area of the Cu/Al_2O_3 catalyst prepared by electroless plating procedure on dehydrogenation reactions 233
Dimerization
Nafion® supported cationic palladium complexes as catalysts (II) 163
Disaccharide
Hydrolysis of sucrose by dealuminated Y-zeolites L283
Dispersion effect
Ammonia and sulfur poisoning effects on hydrogenation of phenylacetylene over Pd supported catalysts 409
Disproportionation
Study of the competition between disproportionation and oxidation of cyclohexene in the liquid phase over solid catalysts 181
Dithiolate
New hydroformylation rhodium catalysts with dithiolate chiral ligands 149

Electroless plating
Effect of acidity and copper surface area of the Cu/Al_2O_3 catalyst prepared by electroless plating procedure on dehydrogenation reactions 233
Epoxidation
Aerobic epoxidation of olefins catalyzed by polymerizable β-ketoesterate complexes of iron(III), nickel(II) and cobalt(II) 19
Esterolysis
Cleavage of active esters by functional thiol compounds: acceleration and time-dependent effects induced by cationic surfactants 263
Ethene
Nafion® supported cationic palladium complexes as catalysts (II) 163
EUROPT-1
XPS of carbon on Pt-black and EUROPT-1. Is methylcyclopentane ring opening a 'coke sensitive' reaction? 225
Fischer–Tropsch synthesis
Poisoning of iron catalyst by COS in syngas for Fischer–Tropsch synthesis 255
HAS
Mechanistic aspects of the higher alcohol synthesis over unpromoted ZnCrO: 1-propanol flow microreactor study 335
Hydrated oxide
The effects of differing degrees of thermal activation of $RuO_2 \cdot xH_2O$ on its corrodability and oxygen catalytic activity 71
Hydrodesulfurization
Kinetic study of the hydrogen sulfide effect in the conversion of thiophene on supported Co–Mo catalysts 369
Hydroformylation
New hydroformylation rhodium catalysts with dithiolate chiral ligands 149
Hydrogen
Highly selective palladium catalyzed hydrogen transfer from H_2O–CO to the C=C double bond of β-benzoylacrylic acid 173
Hydrogenation
Hydrogenation of the aromatic rings of 2-ethylanthraquinone on palladium catalyst 37
Propene hydrogenation on low-temperature reduced Pt/TiO_2. Effects of TiO_2 phases and H_2 treatment on specific catalytic activity 299
Ammonia and sulfur poisoning effects on hydrogenation of phenylacetylene over Pd supported catalysts 409
Hydroisomerization
Hydroisomerization probe of the catalytic and structural behavior of iron–rhodium particles supported on refractory oxide supports 97
Hydrolysis
Hydrolysis of sucrose by dealuminated Y-zeolites L283
Effect of temperature on hydrolysis of triolein by lipase L291
HZSM-5
Catalytic conversion of oxygen containing cyclic compounds. Part II. Cyclohexanone conversion on HZSM-5 zeolites 243
Immobilized catalysts
Nafion® supported cationic palladium complexes as catalysts (II) 163
Iron
Aerobic epoxidation of olefins catalyzed by polymerizable β-ketoesterate complexes of iron(III), nickel(II) and cobalt(II) 19
Aerobic oxidation of aldehydes, ketones, sulfides, alcohols and alkanes catalysed by polymerizable β-ketoesterate complexes of iron(III), nickel(II) and cobalt(II) 27
Hydroisomerization probe of the catalytic and structural behavior of iron–rhodium particles supported on refractory oxide supports 97
Poisoning of iron catalyst by COS in syngas for Fischer–Tropsch synthesis 255
Isomerization
Polymer-supported Pd(II) Wacker-type catalysts. Part III. Isomerisation of alkene double bond 7
Isopropanol
Effect of acidity and copper surface area of the Cu/Al_2O_3 catalyst prepared by electroless plating procedure on dehydrogenation reactions 233
Isopropyl alcohol
Dehydrogenation of isopropyl alcohol over Co–Ni/Mg oxide catalysts 191
β-Ketoesterate complexes
Aerobic epoxidation of olefins catalyzed by polymerizable β-ketoesterate complexes of iron(III), nickel(II) and cobalt(II) 19
Aerobic oxidation of aldehydes, ketones, sulfides, alcohols and alkanes catalysed by polymerizable β-ketoesterate complexes of iron(III), nickel(II) and cobalt(II) 27
Ketones
Aerobic oxidation of aldehydes, ketones, sulfides, alcohols and alkanes catalysed by polymerizable β-ketoesterate complexes of iron(III), nickel(II) and cobalt(II) 27
Kinetic insensitivity
Surface nonuniformity and kinetic insensitivity on heterogeneous catalysts 47
Kinetic modelling
Kinetic study of the hydrogen sulfide effect in the conversion of thiophene on supported Co–Mo catalysts 369
Lactones
Multiple bonds between main-group elements and transition metals. Part 133.

Methyltrioxorhenium as a catalyst of the Baeyer-Villiger oxidation 213
Lipase
Effect of temperature on hydrolysis of triolein by lipase L291
Liquid phase
Study of the competition between disproportionation and oxidation of cyclohexene in the liquid phase over solid catalysts 181
Magnesium
Dehydrogenation of isopropyl alcohol over Co–Ni/Mg oxide catalysts 191
Mechanism
Mechanistic aspects of the higher alcohol synthesis over unpromoted ZnCrO: 1-propanol flow microreactor study 335
Metallosilicates
Catalytic conversion of oxygen containing cyclic compounds. Part I. Cyclohexanol conversion over H[Al]ZSM-5 and H[B]ZSM-5 117
Metal modifiers
Study of the competition between disproportionation and oxidation of cyclohexene in the liquid phase over solid catalysts 181
Metal–support interactions
Propene hydrogenation on low-temperature reduced Pt/TiO_2. Effects of TiO_2 phases and H_2 treatment on specific catalytic activity 299
Methanol synthesis
Mechanistic aspects of the higher alcohol synthesis over unpromoted ZnCrO: 1-propanol flow microreactor study 335
Methylation
Catalytic conversion of oxygen containing cyclic compounds. Part II. Cyclohexanone conversion on HZSM-5 zeolites 243
Micellar medium
Cleavage of active esters by functional thiol compounds: acceleration and time-dependent effects induced by cationic surfactants 263
Modified catalysts
Mechanistic aspects of the higher alcohol synthesis over unpromoted ZnCrO: 1-propanol flow microreactor study 335
Molybdenum
Kinetic study of the hydrogen sulfide effect in the conversion of thiophene on supported Co–Mo catalysts 369
Nafion
Nafion® supported cationic palladium complexes as catalysts (II) 163
Nickel
Aerobic epoxidation of olefins catalyzed by polymerizable β-ketoesterate complexes of iron(III), nickel(II) and cobalt(II) 19
Dehydrogenation of isopropyl alcohol over Co–Ni/Mg oxide catalysts 191
Effect of the reduction temperature on the selectivity of the high temperature reaction of acetone and hydrogen over alumina and titania supported nickel and cobalt catalysts 347
Nitrite reactions
Synthesis and application of organophilic polystyrene–montmorillonite supported onium salts in organic reactions 311
NMR spectroscopy
^{51}V-NMR investigation on the formation of peroxo vanadium complexes in aqueous solution: some novel observations 323
Non-uniformity
Surface nonuniformity and kinetic insensitivity on heterogeneous catalysts 47
Olefins
Highly selective palladium catalyzed hydrogen transfer from H_2O–CO to the C=C double bond of β-benzoylacrylic acid 173
Oxidation
Polymer-supported Pd(II) Wacker-type catalysts. Part III. Isomerisation of alkene double bond 7
Aerobic oxidation of aldehydes, ketones, sulfides, alcohols and alkanes catalysed by polymerizable β-ketoesterate complexes of iron(III), nickel(II) and cobalt(II) 27
The effects of differing degrees of thermal activation of $RuO_2 \cdot xH_2O$ on its corrodability and oxygen catalytic activity 71
Study of the competition between disproportionation and oxidation of cyclohexene in the liquid phase over solid catalysts 181
Multiple bonds between main-group elements and transition metals. Part 133. Methyltrioxorhenium as a catalyst of the Baeyer-Villiger oxidation 213
Oxygen
Aerobic epoxidation of olefins catalyzed by polymerizable β-ketoesterate complexes of iron(III), nickel(II) and cobalt(II) 19
Palladium
Polymer-supported Pd(II) Wacker-type catalysts. Part III. Isomerisation of alkene double bond 7
Hydrogenation of the aromatic rings of 2-ethylanthraquinone on palladium catalyst 37
Sepiolites as supports for Pd catalysts used in organic reduction processes 131
Nafion® supported cationic palladium complexes as catalysts (II) 163
Highly selective palladium catalyzed hydrogen transfer from H_2O–CO to the C=C double bond of β-benzoylacrylic acid 173

Study of the competition between disproportionation and oxidation of cyclohexene in the liquid phase over solid catalysts 181
Ammonia and sulfur poisoning effects on hydrogenation of phenylacetylene over Pd supported catalysts 409
Peroxo complexes
^{51}V-NMR investigation on the formation of peroxo vanadium complexes in aqueous solution: some novel observations 323
Phenylacetylene
Ammonia and sulfur poisoning effects on hydrogenation of phenylacetylene over Pd supported catalysts 409
Phosphonium salts
Synthesis and application of organophilic polystyrene–montmorillonite supported onium salts in organic reactions 311
Platinum
XPS of carbon on Pt-black and EUROPT-1. Is methylcyclopentane ring opening a 'coke sensitive' reaction? 225
Propene hydrogenation on low-temperature reduced Pt/TiO_2. Effects of TiO_2 phases and H_2 treatment on specific catalytic activity 299
p-Nitrophenyl esters
Cleavage of active esters by functional thiol compounds: acceleration and time-dependent effects induced by cationic surfactants 263
^{31}P NMR spectroscopy
Phosphorus-31 NMR spin lattice relaxation times as an indirect probe of adsorbed water in supported aqueous phase catalysts 157
Poisoning
Ammonia and sulfur poisoning effects on hydrogenation of phenylacetylene over Pd supported catalysts 409
Polymer
Polymer-supported Pd(II) Wacker-type catalysts. Part III. Isomerisation of alkene double bond 7
Polystyrene–montmorillonite
Synthesis and application of organophilic polystyrene–montmorillonite supported onium salts in organic reactions 311
Potassium
Poisoning of iron catalyst by COS in syngas for Fischer–Tropsch synthesis 255
Potassium doping
Mechanistic aspects of the higher alcohol synthesis over unpromoted ZnCrO: 1-propanol flow microreactor study 335
Product distribution
Poisoning of iron catalyst by COS in syngas for Fischer–Tropsch synthesis 255
Propene
Propene hydrogenation on low-temperature reduced Pt/TiO_2. Effects of TiO_2 phases and H_2 treatment on specific catalytic activity 299
Reduction
Sepiolites as supports for Pd catalysts used in organic reduction processes 131
Highly selective palladium catalyzed hydrogen transfer from H_2O–CO to the C=C double bond of β-benzoylacrylic acid 173
Effect of the reduction temperature on the selectivity of the high temperature reaction of acetone and hydrogen over alumina and titania supported nickel and cobalt catalysts 347
Refractory oxide supports
Hydroisomerization probe of the catalytic and structural behavior of iron–rhodium particles supported on refractory oxide supports 97
Remote control
Kinetic study of the hydrogen sulfide effect in the conversion of thiophene on supported Co–Mo catalysts 369
Reversed micelles
Effect of temperature on hydrolysis of triolein by lipase L291
Rhenium
Multiple bonds between main-group elements and transition metals. Part 133. Methyltrioxorhenium as a catalyst of the Baeyer-Villiger oxidation 213
Rhodium
Hydroisomerization probe of the catalytic and structural behavior of iron–rhodium particles supported on refractory oxide supports 97
New hydroformylation rhodium catalysts with dithiolate chiral ligands 149
Phosphorus-31 NMR spin lattice relaxation times as an indirect probe of adsorbed water in supported aqueous phase catalysts 157
Ring opening
XPS of carbon on Pt-black and EUROPT-1. Is methylcyclopentane ring opening a 'coke sensitive' reaction? 225
Ruthenium
The effects of differing degrees of thermal activation of $RuO_2 \cdot xH_2O$ on its corrodability and oxygen catalytic activity 71
Selectivity
Sepiolites as supports for Pd catalysts used in organic reduction processes 131
Highly selective palladium catalyzed hydrogen transfer from H_2O–CO to the C=C double bond of β-benzoylacrylic acid 173
Poisoning of iron catalyst by COS in syngas for Fischer–Tropsch synthesis 255

Effect of the reduction temperature on the selectivity of the high temperature reaction of acetone and hydrogen over alumina and titania supported nickel and cobalt catalysts 347
Sepiolites
Sepiolites as supports for Pd catalysts used in organic reduction processes 131
Single-route reactions
Surface nonuniformity and kinetic insensitivity on heterogeneous catalysts 47
Sol–gel
The effect of preparation methods on the properties of zirconia/silicas 85
Steady-state kinetics
Surface nonuniformity and kinetic insensitivity on heterogeneous catalysts 47
Sucrose
Hydrolysis of sucrose by dealuminated Y-zeolites L283
Sulfides
Aerobic oxidation of aldehydes, ketones, sulfides, alcohols and alkanes catalysed by polymerizable β-ketoesterate complexes of iron(III), nickel(II) and cobalt(II) 27
Sulfur
Ammonia and sulfur poisoning effects on hydrogenation of phenylacetylene over Pd supported catalysts 409
Sulphonated triphenyl phosphine salt
Phosphorus-31 NMR spin lattice relaxation times as an indirect probe of adsorbed water in supported aqueous phase catalysts 157
Supported catalysts
Polymer-supported Pd(II) Wacker-type catalysts. Part III. Isomerisation of alkene double bond 7
Hydroisomerization probe of the catalytic and structural behavior of iron–rhodium particles supported on refractory oxide supports 97
Sepiolites as supports for Pd catalysts used in organic reduction processes 131
Dehydrogenation of isopropyl alcohol over Co–Ni/Mg oxide catalysts 191
Propene hydrogenation on low-temperature reduced Pt/TiO_2. Effects of TiO_2 phases and H_2 treatment on specific catalytic activity 299
Synthesis and application of organophilic polystyrene–montmorillonite supported onium salts in organic reactions 311
Effect of the reduction temperature on the selectivity of the high temperature reaction of acetone and hydrogen over alumina and titania supported nickel and cobalt catalysts 347
Ammonia and sulfur poisoning effects on hydrogenation of phenylacetylene over Pd supported catalysts 409
Surface area
Effect of acidity and copper surface area of the Cu/Al_2O_3 catalyst prepared by electroless plating procedure on dehydrogenation reactions 233
Surfaces
Surface nonuniformity and kinetic insensitivity on heterogeneous catalysts 47
Thermal activation
The effects of differing degrees of thermal activation of $RuO_2 \cdot xH_2O$ on its corrodability and oxygen catalytic activity 71
Thiocyanate reactions
Synthesis and application of organophilic polystyrene–montmorillonite supported onium salts in organic reactions 311
Thiol derivatives
Cleavage of active esters by functional thiol compounds: acceleration and time-dependent effects induced by cationic surfactants 263
Thiophene
Kinetic study of the hydrogen sulfide effect in the conversion of thiophene on supported Co–Mo catalysts 369
Titania
Propene hydrogenation on low-temperature reduced Pt/TiO_2. Effects of TiO_2 phases and H_2 treatment on specific catalytic activity 299
Effect of the reduction temperature on the selectivity of the high temperature reaction of acetone and hydrogen over alumina and titania supported nickel and cobalt catalysts 347
Transition metal oxides
Dehydrogenation of isopropyl alcohol over Co–Ni/Mg oxide catalysts 191
Triolein
Effect of temperature on hydrolysis of triolein by lipase L291
Vanadium
^{51}V-NMR investigation on the formation of peroxo vanadium complexes in aqueous solution: some novel observations 323
Wacker oxidation
Polymer-supported Pd(II) Wacker-type catalysts. Part III. Isomerisation of alkene double bond 7
XPS
XPS of carbon on Pt-black and EUROPT-1. Is methylcyclopentane ring opening a 'coke sensitive' reaction? 225
Zeolite
Hydrolysis of sucrose by dealuminated Y-zeolites L283
Zinc
Mechanistic aspects of the higher alcohol synthesis over unpromoted ZnCrO: 1-propanol flow microreactor study 335

Zirconia/silica
The effect of preparation methods on the properties of zirconia/silicas 85
